CODEVENTURE

Date: / /

Overview:

Calling all the coders. This event will put to test your coding skills by eccentric questions and a potpourri of Debug the Code and RE-CODE questions will always keep you on your toes. This is a chance for you to go head to head with some of the best analytical brains of the country and prove your algorithmic prowess. Conquer your opponents with your coding skills and win exciting prizes.

Program Description:

Round 1: BUG-TRAP (Eliminator-Round) :

This round will be a debugging round where your swiftness along with syntax knowledge will be tested.

Round 2: RE-CODE (Final Round) : A hardcore competitive coding round, CODEWARS will drill through Mathematical Computation, Data structures, Algorithms, string handling and much more

General Instructions:

- Codeventure is a solo event.
- No barrier for choice of programming language.
- Since this is a coding competition, use of a PC is mandatory.
- Good network connection is expected for the competition. Issues regarding network problems will not be entertained.
- Further instructions will be provided on the WhatsApp group.
- The decision of the organizers shall be treated as final and binding to all.

Entry fees: Free

Prize pool: 5k
